WE DELIVER
ANYTHING,
ANYWHERE, ANYTIME,
ANY WEIGHT

Offering small to medium
sized businesses tailored
solutions from reputable
carriers at discounted rates

Since 2013, London-East Transportation Services (LETS) has helped small to medium sized businesses send and receive documents, parcels and pallets around the UK and between Europe and the rest of the world at discounted rates.

We provide these services in conjunction with the industry's leading courier and freight brands. They handle all the pick-up and deliveries, while we provide a personalised customer service and the invoicing.

Our office in Romford opened in 2013 and through our dedicated customer care we are now an established and highly recommended choice for SME's in Essex, Central and East London and beyond.

Our customers get a secure, reliable, discounted service, with multiple carrier options, tracking, full auditability and one clear consolidated invoice, all accessible via our on-line shipping portal, which supports eComms integration.

Because we provide a personal level of service, we get to understand you and your business and you get to know us.

There's no call centres or automated phone services to frustrate you!

WHY CHOOSE LONDON-EAST TRANSPORTATION SERVICES?

- One relationship offering multiple carrier options
- Excellent customer service – No call centres
- Access to our internet portal for quotes, bookings, tracking and more
- Multiple sites, multiple carriers, one consolidated invoice
- No monthly volume commitment to receive discounts
- A natural partner for SMEs

Opening an account does not cost any money and does not commit a client to either a monthly spend or consignment volume. It just means it's available when you need it, regardless of how frequently it may be used.

Nucleus IP

"We have used the courier services of LETS over the past 18 months and found them to be a perfect supplier. We have benefited from a reduction in our outgoing costs and their provision of an exemplary, totally professional service gives us peace of mind, especially as we are required to ensure safe delivery of legal documents to almost every country in the world, on a daily basis. We could not have wished for a better alliance and it is plain to see Martin always goes that extra mile for his clients."

Hair Innovations Ltd

"We have dealt with LETS for many years and we have always been pleased with their service and the very competitive prices. They organise our collections from the Far East, with speedy precision and see the tracking through until delivery. We wouldn't use anyone else."

A ONE-STOP SOLUTION FOR YOUR E-STORE AND FULFILMENT

If you have an online store or are a high volume shipper, the LETS shipping tool saves you time and money.

E-Commerce

Our simple-to-use tool links with e-commerce stores including Amazon, eBay, Magento, PrestaShop, Shopify and Woo Commerce

automating the shipping process, saving you time and helping to get your parcels out of the door as quickly as possible. If you're using a different e-commerce solution, or another order management system, you can upload CSV files or use API integration.

Fulfilment

Operating from a secure, modern warehouse, our local fulfilment partner offers storage solutions catering for pallets, cartons, boxes and individual items. You send us the packing

lists from your system(s) and we will pick, pack and dispatch your consignments using the most appropriate courier and service from our extensive network. We will also manage your inventory.
